# Integrated Investment

*Right projects. Right funders. Right time. Right place.*

## OBJECTIVES

Wildfire Risk Mitigation

Habitat Enhancement

Forest Carbon Management

Public Safety

Forest Rehabilitation

Enhanced Timber Supply

Improved Fish & Wildlife Inventory

Fish & Wildlife Recovery

Fibre Recovery

Range Restoration

Rural Economic Benefits

Reforestation

Reconciliation

### Current Challenges:

- Climate Change
- Wildfire, Flooding
- Insects & Disease
- Timber Supply
- Greenhouse Gas Emissions
- Habitat

### Future Healthy Communities & Forests:

- Revitalization
- Carbon Management
- Pest Mitigation
- Wildlife Habitat Recovery
- Economic Benefits
- Reduced Wildfire Risks

## INTEGRATED INVESTMENT

Low Carbon Economy Fund

Habitat Conservation Trust Fund

Community Resiliency Investment Program

Forests For Tomorrow

Freshwater Fisheries Society of BC

Forest Enhancement Society

Environmental Stewardship Initiative

Forest Carbon Initiative

Columbia Basin Trust

Land Based Investment Funds

Strategic Forestry Envelope

Caribou Recovery

Wildlife & Habitat Modernization

## FUNDING

*Working together to build a healthy, sustainable & resilient natural resource sector*

Ministry of Forests, Lands, Natural Resource Operations & Rural Development

# Crown Land Wildfire Risk Reduction

**Ministry Goal:** Reduce the risk of wildfire and mitigate their impacts on communities, while increasing ecosystem resiliency and supporting local contractors across the province

Administered in partnership between BC Wildfire Service, Regional Operations, BC Parks, BC Timber Sales and Mountain Resorts Branch Fuel management planning and treatment activities focusing on provincial Crown Land located around communities, critical infrastructure, and natural resource values at risk

In the NE Region, we are working on treating over 750 ha high risk areas in the next 10 years.

# TOGETHER FOR WILDLIFE

Vision: Wildlife and their habitats are thriving, adaptive to change, and support and enrich the lives of all British Columbians

5 goals

23 actions

\$10M uplift starting in 2020

**Goal 5:**

Collaborative wildlife stewardship advances reconciliation with Indigenous governments

**Goal 4:**

Accountability and transparency build trust and confidence

**Goal 1:**

All British Columbians have a voice in wildlife stewardship

**Goal 2:**

Data, information, and knowledge drive better decisions

**Goal 3:**

Stewardship actions achieve tangible benefits for wildlife and their habitats

# ECO SYSTEM RESTORATION

---

ECO SYSTEM HEALTH

# RX FIRE IN THE NORTHEAST

- Collaborative review and support between Stakeholders, First Nations, FLNRORD, BC Parks and BCWS
- Land use planning specific to Rx fire
- Annual collaborative planning process incorporating stakeholder input.
