# Modernized Land Use Planning project to update the Fort St John Land and Resource Management Plan

An opportunity to work cooperatively to re-examine current management direction and establishing a vision for future land use in the plan area.

It is our intent to advance reconciliation, increase socioeconomic wellbeing for all, and sets strategic direction for natural resource management.

# Current Status of TOR

Negotiations continue in efforts to reach consensus on draft TOR document.

The remaining pieces are focused on the relationship between the Partners

The consensus-seeking process must acknowledge and accommodate the respective decision making processes of each Partner.

# TOR and Engagement Strategy:

## Upcoming Information Sessions

**Purpose:** Introduce the public and stakeholders to those contents of the Terms of Reference and highlight the proposed timing and methods for public engagement throughout the planning process.

A few items related to the relationship between the Partners are still being negotiated.

Specifically, the presentation will provide an overview of the draft structures and processes that have been developed to guide an update of the Fort St John Land and Resource Management Plan.
