

North Area Wildlife Strategy & 2024 Regulation Change Process

NE Roundtable
September 27, 2023

What is the North Area Wildlife Strategy?

- Development of a principled, coordinated approach to Wildlife Management
 - Create opportunities for sharing resources and coordination of effort across Ministries (MoF, WLRS) and North Area regions (Peace, Omineca, Skeena)
 - Develop a strategy for wildlife co-management consistent with existing commitments and Together for Wildlife (T4W)
 - Identify and prioritize policy challenges

Why NAWS?

Ensure coordination and common approaches to wildlife co-management across the north

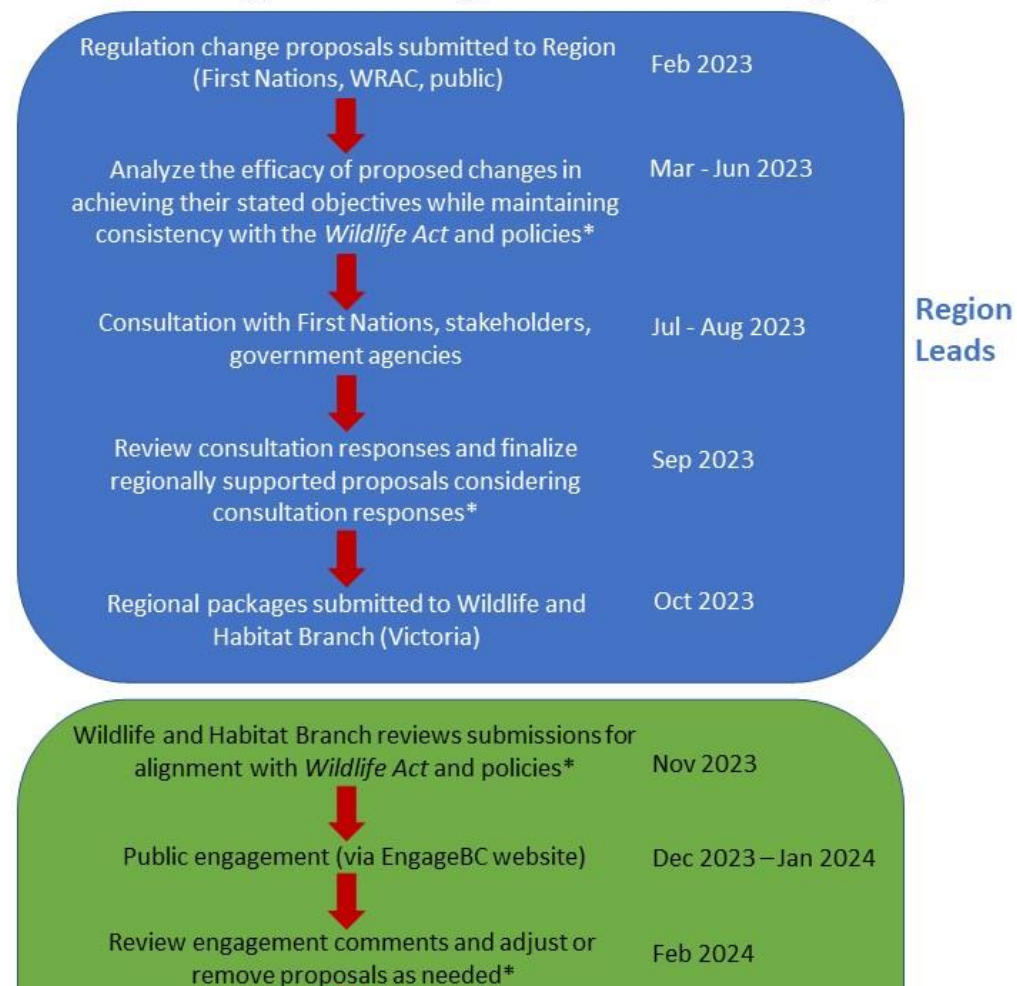

- Support development of joint objective-setting processes
 - Via Regional Wildlife Advisory Committees (RWACs)
- Collection of trusted information that inform decision-making
 - Updated information and inventory plans

2024 Hunting and Trapping Regulation Change Process

- Coordination of regulation change process across North Area regions (Peace, Omineca, Skeena)
- Principled approach
 - Clear objectives
 - Measurable
 - Regional support/recommendations
- All proposals were shared in one package to First Nations and stakeholders
 - Opportunity to explore implications with a broader lens
