

Chronic Wasting Disease

+
•
○

- Wildlife health team, NE Ecosystems Team and T8 Wildlife Working Group

Tentative plan

- Support for the Provincial CWD Program; early detection in the far northeast; prevention of spread from the south and the east into BC's northeast region
- CWD far north coordinator
- Engagement and outreach specialist

Other collaborative programs

+

o

•

- NE Ecosystems Team

New and ongoing projects

- North American Bat Monitoring Program (USGS)
- Motus the Northeast (Birds Canada)
- Liard Plateau project (U of A)
- Updating distribution and verifying at risk NE lichen species (national collaboration)
- Bumblebee survey (provincial collaboration)
- White-nose syndrome monitoring (national collaboration)
- Fisher exclusion plate – 15 year summary (province-wide, BCTA)
